- ❖ **Doors will open at 6:00 p.m. with free snacks/refreshments**

The terms conservation and drainage may seem to be at opposite ends of management approaches when dealing with runoff coming from our lands. But recently these two important and needed components of land management have come together to form a new innovative technology and approach. This approach has the potential to benefit crops and water quality and may significantly improve our Minnesota River Watershed.

The public is invited to attend the events in their area and learn more about this exciting way of water management.

Experts who have been working on the development of this concept along with those who have been involved with it for several years will be on hand to provide an overview and answer questions from the public.

J.R Brown Center
600 Main Street
Henderson, MN

Kilowatt Community Center
600 Kilowatt Drive
Granite Falls, MN

Best Western Hotel
111 Range Street
North Mankato, MN

Co-Hosts for the events are:

Minnesota Department of Agriculture, Agridrain Company, Agricultural Drainage Management Coalition, Minnesota Pollution Control Agency, Minnesota River Board, Friends of Minnesota Valley, Coalition for a Clean Minnesota River, Clean Up the River Environment, and Minnesota River Watershed Alliance.
